

# Younis Al Riyami

---

Dundee, United Kingdom | +44 7493 75 1181 | [y.riyami207@gmail.com](mailto:y.riyami207@gmail.com) | <https://yeeet214.github.io/Portfolio/>

## Profile

Seeking full-time employment to support me throughout university. Collaborated to develop a social media application (Pebl, available to view in my portfolio). I enjoy solving problems, explore new technologies and theories and can adapt to any scenario or environment based on requirements. I also have a good understanding and utilisation of Version Control Systems such as Git.

## Education

### **BSC IN COMPUTER SCIENCE (DATA SCIENCE AND AI) | 2024 - CURRENT | UNIVERSITY OF DUNDEE**

- Mathematics – A5
- Front End Web Development – C2
- Software Development – A5
- Unix Systems – A3
- Professional Skills – D2
- Data Structures and Algorithms – A3
- Computing in Society – B3
- Embedded Systems – B2

### **A-LEVELS IN IT, MATH, AND PHYSICS | 2012 - 2024 | ABQ INTERNATIONAL SCHOOL**

- Mathematics – A
- Physics – A
- IT - B

## Experience

### **DEVELOPER | GLOBAL GAME JAM 2025**

- Managed to create a demo for a game with physics properties and animation over the span of 2 days with my colleagues.
- Developed the game whilst learning the engine it was built in.
- Displayed efficient work even while under pressure, the game was deployed on itch.io (link can be found in the portfolio along with other projects).
- The Devious Bubble Github: <https://github.com/GriffinSego/DeviousBubbles>

### **CREW & MEDIA PRODUCTION | SEASCAPE LLC | JUNE 2024 – AUGUST - 2024**

- Responsible for catering guests throughout the trips.
- Filmed high-quality footage of underwater and surface marine environments.
- Supported creation of media for promotional purposes of the company.
- Communicated safety rules and recommendations on trips to the guests effectively and in different languages, ensuring that guests do not harm themselves or others when exploring the marine environment.

## **REMOTE COMPUTER CONNECTION (STUDENT) | ABQ INTERNATIONAL SCHOOLS | SEPTEMBER 2023- JUNE 2024**

- Worked on a method to use the school computers remotely to practice A level IT past papers with software that wasn't available at home.
- Learned how DNS works and how to connect and activate computers remotely over Wi-Fi.
- Successfully turned on the school's computers remotely over Wi-Fi using a mobile app and connected using AnyDesk.

## **TRAINEE FIELD WORKER | BORETS SEVEN SEAS & CO. LLC | AUGUST 2025 – SEPTEMBER 2025**

- Completed HSE and H2S training, showing clear understanding of the dangers on the worksite, precautions and protocols during emergencies and using proper PPE.
- Assisted in assembling and dismantling 2 ESP systems and managing cable extraction and lending for over 5 ESPs without any incidents.
- Displayed proper adherence to safety measures around work sites and heavy equipment.
- Completed banding and mounting cable protectors (cross-couplings) on rig sites.
- Displayed perfect cooperation with colleagues and supervisors even during late night hours.

## **Skills & Abilities**

- |   |                                  |
|---|----------------------------------|
| • Java, Python, JSON                      | • Photography and Videography    |
| • Quick learner                           | • Communication and Coordination |
| • Problem solving                         | • Work under pressure            |
| • Adaptation to different environments    | • Cisco Packet Tracer            |
| • Fluent in English and Russian           | • Networking                     |
| • Conversational level of Arabic (fus-ha) |                                  |

## **Activities and Interests**

Tennis, Padel Tennis, Puzzles, camping, recreational scuba diving, hiking, water-skiing, travelling.
